America Falling Apart, Literally

When the bridge collapsed in Minneapolis, Minn. Wed., Aug.1, 2007, I already knew how badly the infrastructure of America was and still is crumbling. I've been mentioning it to Americans in everyday conversation and in other ways for years.

This catastrophic bridge collapse, where already the death toll has climbed to 7 as of Aug. 8, 2007, is a prime example of the Bush-Cheney destructive effect on the U.S..

Do you recognize the following paragraph? It's part of "Libby, a 'Candidate For The Con', Busted", which I published on March 06, 2007 at www.informamerica.net and I put a posting at www.afterdowningstreet.org, also.

"While government employees deal with prosecuting the seemingly immovable regime officials, the legislation for the welfare of the people is stalled to deal with the negative. Good time and taxpayer money must be spent dragging on with extricating abusive officials while the other needs of a nation go unattended to some extent, and. more freeways and bridges must crumble while the culpable are dealt with. More veteran soldiers come home wounded with inadequate housing and treatment while millions are spent in court as a nation is forced to scrape the scum out of high office."

All it takes to lead America in the right direction are people WHO GENUINELY CARE ABOUT AMERICA AND THE WELL BEING OF AMERICANS, and not leaders who are overly concerned with war profiteering, self aggrandizement and the enrichment of their cronies. Bush and Cheney and their "Candidates For The Con" are not concerned with the welfare of America and her people and you should do whatever you can to impeach the whole regime.

There has existed a real opportunity for some time in America to create a work program to rebuild America's failing infrastructure and it could have replaced a large part of the welfare programs at the same time it would be bringing the different races in America together for a good and common cause.

We all must use the public bridges and streets, railways and freeways, and what a marvelous opportunity to unite the people of our great land instead of having what ruin and misery we have on the streets where people are shooting one another.

IMPEACH BUSH-CHENEY NOW and rid the U.S. of anti-American cabals.

This above article appears in the electronic submission of "Candidates For The Con" at www.informamerica.net thank you, joe martin

America Has Been Falling Apart...

And it's been in a steady process of decay ever since Pres. Nixon broke the original Bretton Woods monetary agreement, and let the dollar's rate of value "float", instead of being fixed to the the value of gold.

That steady decay process continued in the 1970's with the de-industrialization of the nation; the loss of machine-tool shops, manufacturing and other vital industries. Family farms were

summarily shut down, while the cost of a college or university education outstripped the shrinking incomes of the lower 80% of family income brackets.

The public education system was gutted by special-interests groups, primarily those who support the Fundamentalist Evangelical pro-war "Christian" agenda of an American theocracy, while culture was corrupted by British-based oligarchical forces who realized that the easiest way to destroy the nation from within is to corrupt and pollute the culture.

Self-styled private sector "budget cutters" (like Felix Rohatyn and his disasterous "Big MAC" program for New York City), who whined about the massive Federal "deficit", insisted that "pork-barrel" programs which were vital to the General Welfare of the American people either be drastically reduced or eliminated altogether, and in the process, the lives of millions of Americans are in constant jeopardy from collapsing bridges, crumbling roads and highways, a shrinking public transit grid, lack of clean, safe drinking water, a volatile electric power supply, and our own brand of "terrorism" -- street gang violence which takes the lives of hundreds of children (33 public schoolchildren died in Chicago during the 2006/2007 school year, and this school year has already begun with the deaths of two schoolchildren) and adults every year.

Our brave men and women who served in Iraq come home to inadequate (or non-existent) medical care, a military system and a Veteran's Administration which demonstrates a patent indifference toward them and the needs of their families, and have to live each day with symptoms of PTSD that are either ignored or dangerously minimized.

As long as Cheney is in office, he will carry out his dangerously insane plan to bomb Iran back to the Middle Ages, while at the same time, the mortgage and consumer credit card debt bubbles explode. He's got to go, because if he's not removed from office, and programs immediately implemented to keep people from losing their houses, chartered banks from collapsing into ruin, and a massive infrastructure rebuilding program to provide meaningful work for millions of unemployed and underemployed Americans, the nation will plunge into the kind of social chaos which will set the stage for martial law, and a fascist, totalitarian police-state dictatorship.

CHENEY MUST GO ... NOW!

Yes, War Profits Placed Above U.S. Roads, Bridges, & Freeways

Yes, this amounts to war profits being placed above the importance of our own roads, bridges, and freeways here in America.

When you hear George Bush using the word "Aahmerka" you can be certain he personally envisions his image of a whore he has conquered rather than a beloved nation the rest of us see, for he and his crime families have sucked the lifeblood from this country and those who are slipping down in their own blood to do what they think is defend America are on the wrong side of the planet to do that.

The troops need to be in the United States under RESPONSIBLE military rule and direction to remove the war criminals and dual citizen traitors from the W. House, CIA, and the Pentagon.
